

Class - III EVS January Month Notes

18. Means Of Communication

I. Know These Terms:

1. Orally - By Speaking.
2. Abroad - In or to a foreign country.
3. Advent - The arrival of a notable person or thing.
4. Gesture - Movement of a body part, especially hand or head.

II. Answer the following questions:

1. How are mobile phones different from landline phones?

Mobile Phones	Landlines
1. Mobile phones can be carried wherever we go.	Landlines are fixed with wires and cannot be carried anywhere.
2. They are used for talking and also to send text messages and pictures.	They are used only for talking

2. What is an Internet used for?

Internet refers to the computer network that connects other networks and computers around the world. Internet is very useful. We can get and share information about anything from anywhere in the world on the Internet.

3. What do you understand by mass communication?

Mass communication is a way of communicating with a large number of people at the same time. There are many different means of mass communication like newspaper, radio, television and internet.

4. Write the steps involved in the journey of a letter from the letter box to your house?

The journey of a letter from the letter box to our house is as follows:

- We put letters and postcards in a letterbox.
- The postman collects letters from the letterbox at fixed times.
- The postman then takes the letters to the post office where they are sorted according to the states and cities.
- Letters are put in different bags and sent to specific states and places by trains and aeroplanes.
- Letters are again sorted in the post office of destination city according to the areas. They are sent to the area's post offices in the city by a mail van.
- The postman delivers the letters at the addresses written on them.

5. Why do we communicate? How do people who cannot speak or hear communicate?

We communicate to share ideas and information, ask questions and to express our feelings. People who cannot speak or hear, communicate through sign language. It is a way of communicating using hand movements, face expressions and body language
